PROFESSIONAL SUMMARY

Passionate Computer Science undergraduate with strong foundations in software development, data structures, and problem-solving. Experienced in building responsive full-stack applications and exploring AI/ML technologies, with a keen interest in developing efficient, scalable, and user-focused solutions in collaborative engineering environments.

EDUCATION

Prasad V. Potluri Siddhartha Institute of Technology

Vijayawada, Andhra Pradesh

Bachelor of Technology in Computer Science and Engineering (AI & ML)

2023 – 2027

CGPA: 9.06/10.0

TECHNICAL SKILLS

- **Programming:** Java (Advanced), Python, SQL
- **Web Development:** HTML5, CSS3, JavaScript, Bootstrap, Flask, React.js
- **Machine Learning:** NLP, NumPy, Pandas, TensorFlow, Keras, Scikit-learn
- **Tools & Systems:** GitHub, Postman, VS Code, LeetCode
- **Concepts:** Data Structures & Algorithms, DBMS, OS, Deep Learning, NLP, CNS, DV

PROJECTS

- **PlacementPilot AI – AI-Powered Placement Preparation Platform** 2026
Built an AI-powered placement preparation platform during the **MERNVERSE 2026 24-hour hackathon** using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)**. Developed personalized learning paths, aptitude and coding practice modules, interview preparation resources, AI-driven assistance, secure authentication, and progress tracking dashboards to enhance placement readiness and user engagement.
- **Shopper Intent Predictor – Machine Learning Web Application** 2025
Developed a customer purchase intent prediction system using Python, Scikit-learn, Flask, HTML, and CSS. Trained a Decision Tree model with 85% accuracy and integrated it into a responsive web application for real-time predictions.

ACHIEVEMENTS AND CERTIFICATIONS

- **Hackathon Achievement:** Secured **2nd Prize** in the **MERNVERSE 2026 24-Hour Hackathon** for developing *PlacementPilot AI*, an AI-powered placement preparation platform.
- **NPTEL Certifications:** Awarded certificates in “Foundation of R Software”, “Programming in Java”, and “Design and Analysis of Algorithms (DAA)” for academic excellence.
- **Professional Internships:** Completed Google AI/ML and AWS Generative AI Virtual Internships (2025–2026), gaining hands-on experience in cloud and model deployment.

CO-CURRICULAR AND LEADERSHIP

- Participated in multiple coding contests on LeetCode, CodeChef, and HackerRank, strengthening problem-solving and algorithmic skills.
- Participated in an 8-hour Ideathon hackathon and collaborated in building a full-stack web application prototype.
- Actively explored full-stack development and AI/ML technologies through self-driven projects and online learning platforms.
- Solved Data Structures and Algorithms problems regularly to improve coding efficiency and logical thinking.
